Dear Swaminathans,

July 12, 1986

Just writing to say how much I enjoyed my all too brief visit with MS here in Ottawa. However, I will have a chance to return the visit, again briefly, from July 29 to August 4. I'll be at UPLB where we are sponsoring two workshops. I'll be in touch when I arrive.

I have some news you may be interested in. Louise and I have decided to get married (it seems to be the year for it). It happened when I was in hospital about a month ago with a 40° pneumonia. However, rumours to the contrary, I was not delirious.

Should there be any hope of your attending, you are both invited to our wedding which will be outside, beside a lake about 2 hours from Montreal on September 21. More details soon. "Post tenebris venit lux" - after darkness comes the light.

Till soon

Michael.
