Dear Krishnas, We all are doing well and I wish to hear about the welfare of <sup>yourself &</sup> all the members of your family. My boy, by name, Sri. M. Venka-  
taraman, is appearing for the B.A degree examination, with Mathematics as his optional subject. <sup>this year</sup> Last year he applied to the Principal, of the College of Engineering, Benares Hindu University and I also wrote to you about the same. As per your kind letter, dated 27-1-1946 in which you said you know the Principal, the application was sent to your address or so if I remember aright or to the Principal himself. Anyway, he did not secure admission. This year he has filled up the required application form with all particulars and I have now sent them same to the Principal, College of Engineering, Benares Hindu University. As I already wrote to you, he obtained distinctions in three subjects, Mathematics, Physics and Chemistry in the Intermediate examination. He is now sitting and writing the examinations for the B.A Degree examination which will be over by 3<sup>rd</sup> or 4<sup>th</sup> April or so. As I hope he will come out successful, though not with I class (He hopes for I class however.) I request you to be so good as

to speak to the Principal, College of  
Engineering, Benares Hindu University  
and try best to secure him Accomodation.

I suppose, you don't tour now outside  
India this time, although I heard that  
you may be going to America and I am  
awarding the favour of a line in reply.

May I also request you, (if I am not  
considered as troublesome) to suggest  
any worthy career for my son, whose  
Academical qualifications I have  
set forth above.

You know I have got only a few  
years for my retirement and I wish  
to be favoured with such advantage  
as you can think of bestowing on  
me, by just helping my boy to  
any career of life, which you may  
deem fit to be pursued by him.

Hoping to be excused for the trouble  
and eagerly awaiting the favour  
of a line in reply.

Yours Sincerely,

V. Meenabhisanao
