UNIVERSITY OF MYSORE.

DEPARTMENT OF PHYSICS.

CENTRAL COLLEGE,

BANGALORE.

9th June 1947.

Mr. B. V. Sreekantan was a student of this department during 1943-46 for his B.Sc(Hons) degree course. In March 1946, he passed the B.Sc(Hons) degree examination securing a first class. During 1946-47, he was a student of the M.Sc. class. He will appear next month for the M.Sc. degree examination with "Electromagnetic Radiations and their Applications" as his special subject. I expect him to do very well in the examination.

Mr. Sreekantan was far and away the best student of his class. With his extraordinary abilities and industry, he has managed to reach a high level of efficiency in ~~the~~ Physics. His understanding of the theoretical aspects of the subjects is both thorough and precise. He was equally interested in practical work, which was always distinguished by neatness and precision. His character and conduct are exemplary.

I have every confidence that given proper facilities he would distinguish himself in research in pure Physics. I desire to recommend him as a very able and ~~bright~~ bright young man.

Mr. B. V. Sreekantan passed the B.Sc (Hons) degree examination of March 1946, with Physics as his main subject and obtaining a first class distinction. He has had a brilliant academic career, gaining a first class distinction in all the public and University examinations. His laboratory work was characterised by dexterity, smartness and thoroughness.

He has amiable manners and an excellent character. He plays Cricket and Tennis. While in College, he took an active part in extra-curricular activities and in the social activities of the College Hostel. I feel confident that he will acquit himself creditably in any kind of specialised work wherein smartness and earnestness are of great value.
