Dear Dr.Nitinrao Joshi,

It is quite sometime since we met and had correwpondance.

We have started some developmental activities in villages of the Western Ghats in Pune district. Tha publications you sent me were very useful and served as a guideline in our own activities here.

I was intrested in visiting the sites of activities of CES so I could get a firsthand knowledge of the technologies used.

Could you kindly let me know whom I should approach regarding the visit and when would be the best time for the same. Who would be the best person with whom I could discuss about forest practices and ecodevelopment .

With kind regards,

Yours Sincerly,

*Anant Gogte*
