DEPARTMENT OF PHYSICS
PRINCESS STREET
KARACHI

Ref. _____ Dated 7th January, 1954.

My dear Prof. Krishnan,

It was a great pleasure to get your good wishes and kind rememberances through Prof. Sulaman Kerawala. It reminded me all good old days. It is now nearly six years since we have met one another.

You are aware that our Pakistan Science Conference is being held at Karachi under the auspecious of the University of Karachi. The session starts from 18th January and would last till 23rd inst. I know that you have a very busy time but nothing would be a greater pleasure than to see you amongst us here and have some discussions and desire benefit out of your ripe experience. As such May I extent to you a cordial invitation to attend our deliberations of the Pakistan Science Conference during the session week. Your travel expenses and hamlting charges would be borne by the Pakistan Science Conference.

I am sure that though the notice si very short yet you would be able to manage to come and give us the pleasure of your knowledge and company.

It was with great pleasure that I saw yesterday in the National Research Counsel Bulletin of Canada that Dr. Asundi is now at Ottawa working with Prof. Herzberg.

I hope you and your family are in best of health.

With kindest regards,

Yours sincerely,

(S.M. Karim)
Head of the,
Department of Physics.
