Dear Friend,

Ministry of Environment & Forests, Government of India, has sanctioned me an ENVIS Centre in Biogeochemistry. I will shortly be preparing and circulating a brief about the scope and objective of this project. While all aspects of Biogeochemistry are proposed to be covered, the information System (Environmental Information System) is expected also to include certain related topics such as global change. Environmental Policy, Law etc. I would welcome from you any constructive suggestions that can be considered at the initial stage itself.

Looking forward to hear from you.

V. Subramanian
Project Director
ENVIS in Biogeochemistry
