SECRÉTAIRE GÉNÉRAL : GEORGES LACLAVÈRE, 30, AVENUE RAPP, PARIS (VII^e)

Paris, 26 June 1958

Dr. K.S. Krishnan
National Physical Laboratory of India
Hillside Road
New Delhi
Inde

Dear Dr. Krishnan,

It is my pleasure to inform you that Prof. Gorchkov of Moscow University will be in Delhi from July 3rd to July 6th on his way to Rangoon where he has received an assignment as Unesco Expert to organize Geophysics in Burma.

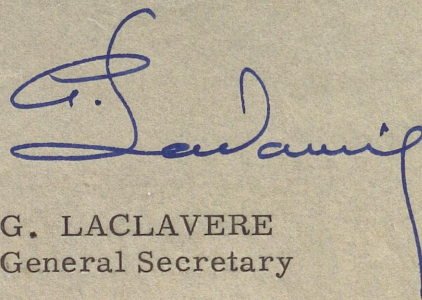

Prof. Gorcjkov, whom I met already in Rome on the occasion of the Xth General Assembly of the International Union of Geodesy and Geophysics, is Professor of Dynamic Geology in Moscow and is therefore particularly interested in Seismology among the disciplines of our Union.

I am sure that he would be very interested to visit your laboratory and if you could manage some of your precious time to show him through the plant, I would be most grateful. I suggest that you leave a message for him at the soviet Embassy.

I hope that you have now completely recovered.

With every good wish.

Yours sincerely,

G. LACLAVÈRE
General Secretary
