Dear Mr Futehally,

I had called this morning to talk with you about something I've been thinking about since a week. Mrs Futehally informed me that you were indisposed. Good health to you sir!

I was wondering why we cannot scan *all* the *Newsletters* and burn them into a Compact Disc, making 40 years of your effort permanently available to people. I have a scanner at home and can do it easily, as I also happen to have almost all the issues you brought out. I have to discuss this in detail with someone who knows more about scanning and how user-friendly the result will be. I will keep you posted on this. Along with the *Newsletter*, I thought we could add all entries from my Bibliography that deal with the *Newsletter*. So the CD will become self-sufficient. Users would be able to search what they are looking for and also actually be able to read it!

It sounds exciting to me and I hope to have more details by the time I come to Bangalore on 12<sup>th</sup> June, when I hope I can meet you. Prakriti (my daughter) has got admission into the 11<sup>th</sup> standard in Rishi Valley and we're coming down to settle her in on the 13<sup>th</sup>-14<sup>th</sup>. I plan to catch the train on 15<sup>th</sup>. That leaves me the 12<sup>th</sup>. I will of course speak with you on the phone prior to that from Hyderabad. We could also discuss any financial implications when we meet.

I hope the idea is agreeable to you. I request you to keep it under wraps till things are concretized.

With best wishes and regards,

Yours truly,

ZAFAR FUTEHALLY
