post-graduate course in Physics at the University College of Science, Calcutta. Since November 1923 up to the present time I have been working in the Laboratory of the Indian Association for the Cultivation of Science, firstly as a Research Scholar and since October 1926 as a Research Associate.

I have written either by myself or jointly some 30 original papers of which a list is enclosed. I have acquired experience of lecturing work by regularly taking an active part in the ~~scientific colloquia organised by Prof. C. V. Raman at the University~~ College of Science and at the Indian Association for the Cultivation of Science. In May 1927 I submitted some of my research papers to the Madras University and received the M.Sc. (Research) Degree

<sup>A</sup>~~One~~ set of reprints (so far as available) of my published papers is being sent to you today in a separate packet. ~~Six~~ additional sets of the papers will be sent to you in the course
