PRESS RELEASE - From the headquarters of the U.S. Delegation to the Fifth Session of the General Conference of the United Nations Educational, Scientific and Cultural Organization being held in Florence, Italy from 22 May to 17 June, 1950.

Caption

Dr. Isidor I. Rabi, professor of physics at Columbia University and member of the U. S. Delegation to the Fifth General Conference of UNESCO in Florence was the guest speaker at a lecture held at the University of Florence in conjunction with the activities of the UNESCO Conference. Dr. Rabi paused outside the university after his address to talk with the group of foreign scientists shown here. They are: (left to right) Sir K.S. Krishnan, professor of physics at New Delhi University, New Delhi, India; Professor Cacciapuoti, president of the Institute of Physics of the University of Trieste and Italian Delegate to UNESCO; Professor Mandó of the University of Florence; Professor Rabi; and Professor Franchetti, president of the Institute of Physics of the University of Florence. Seen in the background of the photo is the university's observatory which is located on the site where Gallileo conducted many of his studies in the field of astronomy.
