

Indian Association for the Cultivation of Science

210 BOW-BAZAR STREET  
CALCUTTA.

February 16, 1942.

My dear Professor Madhava Rao,

I received today a letter from the Registrar of the Andhra University regarding the appointment of the Board of Paper Setters and Examiners in Mathematical Physics for the ensuing M.Sc. examination. I hope you are accepting the membership of the Board. In that case may I suggest that <sup>Question</sup> Paper II, on "The New Quantum Theory and Wave Mechanics" be set by you, since you are more familiar with the subject? I shall set Paper I on "Crystal Physics". Of course we set the questions in consultation with the internal examiners, Dr. Narendranath. Kindly let me know whether you agree to this suggestion.

With kind regards,

P.S. I am so sorry I could not attend the <sup>Nagpur</sup> meeting.

Yours sincerely  
K. R. Srinivasan
