

ALLAHABAD UNIVERSITY
DEPARTMENT OF PHYSICS
ALLAHABAD, INDIA.

3rd October '49

Dear Professor Krishnan,

Many thanks for your kind letter dated 20th sept. 49 . The registrar is still waiting for your paper in M.Sc. Final. Please send it as early as possible. It is not at all late for you.

With best wishes,

Yours sincerely

R. J. Ghosh

Sir K.S.Krishnan F.R.S.

National Physical Laboratory of India

New Delhi.

Nagpur 24.2.42

Dear Prof. Krishnan,

I am writing this private letter to inform you about the University conditions which may not be known to you. You must have heard that Dr. Bhabha is not coming and that Professor's post has again been advertised. Two years back they have appointed. Baba Kartar Singh as Professor of Chemistry whom you may be knowing. We are afraid some such appointment may be made in Physics deptt. also. We know you do not hanker for the All India post. The reasons may be many & known to you all. But I can assure you that 1) no political parties now exist now, & the V.C. is very anxious that some body like yourself should occupy the chair of Physics. He will surely give full cooperation help & money too, as he is doing to many departments. The departmental people will whole heartedly cooperate with you including ~~my~~ Mr. Saligram Bhatnagar who is most anxious that you come to All India. 2) That a Research grant which was formerly Dr. Sahas' grant has been restored to the deptt. & it is

Professor's Research grant of Rs 5000/. And
 we have Rs 9000/ departmental grant from
 which you can squeeze out something.
 Then V.C will surely give you some
 non recurring grant for apparatus
 & other purposes. The material you get here
 is quite good & you will surely have three
 four Research scholars. There is departmental
 research scholarship, D.Sc scholarship,
 Victoria Readership. Regarding the salary
 they can offer I think Rs 1200/ - start salary.
 You will be doing good to the Science
 Community. Then above all you will
 find the Government will help you
 also & you will have a position in
 the Govt. circle also. I am giving
 you these details so that you may not be
 frightened by people speaking ill
 of the Univ. The present conditions
 are what I am writing. Kindly give
 a friendly reply. If your reply is in the
 favourable side, then I shall move Mr
 Mayhew to do what he can. The
 matter is private & will be treated as such.
 It is not possible for me to go to Calcutta.
 I wish very otherwise I would see you. I
 come here for exams.

my address
 152 South Malabar
 A. V. Lakshmi

with best regards
 Suresh

To

Prof. Sir K.S.Krishnan, F.R.S.

University Buildings, DELHI.

Dear Prof. Krishnan,

We have got crystals from Jubbulpore, but all of them have very high frequencies ranging from 4 megacycles to 15 megacycles, and as such they are at present unsuitable for our experiments. I shall be greatly obliged if you can give us on loan a V cut crystal of 1.4 megacycle.

Yours sincerely,

R. N. Ghosh
