28 MAR 1956

To

The Director,  
National Physical Laboratory,  
New Delhi

Dear Sir,

I wish to bring to your kind notice the following fact for your consideration and immediate action.

There is one Shri Rajindra Kumar who is working as an apprentice in your technical department. He was my examinee in this year's Punjab University Matriculation Practical examination in civics & Hygiene on the 24-3-56 at Kirori Mal College, Delhi in the morning session. His Roll number is 27444. While I was examining the candidates, he misbehaved with me and was very rude. He went to the extent of abusing me and misbehaving with the Lady Supervisor there. This was really a very bad example set by one of your staff members of National Physical Laboratory. His misbehaviour offended my prestige and self-respect. Now I wish you to take a strong action against

this man. If possible kindly send  
me an information about the action  
taken against him. I will request you  
to go <sup>see</sup> <sub>x</sub> into this matter personally. I wish  
that the young generation of our country  
must be more civilized and well-  
behaved, specially when we have  
achieved independence. A strong action  
taken by you against this man will  
give a lesson to the unmannered and  
uncivilized.

Thanking you,

Yours Sincerely  
K. C. Jain
