

Dr. (Mrs.) Z.R. Turel,
Professor & Head.

Deptt. of Nuclear Chemistry,
The Institute of Science,
15, Madam Cama Road,
Bombay-40032, India.

Ref.No.NCD/Cert/80-81/

Date:- December 16, 1980.

TO WHOM SOEVER IT MAY CONCERN

This is to certify that Dr. (Miss) A.P. Krishnaja is known to me since the last three years. Dr. Krishnaja bears a very scholastic record. She secured a First Class at the S.S.C. and Pre-Degree examinations. She did her graduation with Zoology as the main and Chemistry and Botany as subsidiaries, securing a Higher Second Class. She did her M.Sc. by research. For her doctoral degree, she worked at the Institute of Science, Bombay, at the same time working as a Junior Research Associate in the project entitled " Study of aquatic environment in and around Bombay (a) monitoring of metallic concentration (Hg, Cd, As, Se and Pb) and (b) their effects on crustaceans."

Dr. Krishnaja is a very fine scientist. She is well conversant with the theoretical and practical aspects of her subject. She has kept herself upto date with literature survey and took active part in intellectual discussions.

She was a recipient of the Indian Council of Agricultural Research Junior Fellowship from 1973 to 1975.

During the period of my association with her I have found her to be very polite and respectful to her teachers and friendly with her colleagues.

To the best of my knowledge she bears a good moral character. I have no hesitation in recommending, her very strongly, for further studies.

I wish her best of luck.

Z. R. Turel
(Z.R. Turel.)

Head of the Department,
Department of Nuclear Chemistry,
Institute of Science,
Bombay-400 032.

THE INSTITUTE OF SCIENCE, BOMBAY.

Applications are invited for the following posts sanctioned by the Department of Science and Technology, Government of India, New Delhi, for the research project "Study of Aquatic Environment in and around Bombay -(a) Monitoring of metallic concentrations (Hg, Cd, As, Se and Pb) and (b) their effect on crustaceans" to be carried out at the Institute of Science, Bombay. Applications on plain paper addressed to the Director, Institute of Science, Bombay-400 032 should reach him on or before 31st October, 1977.

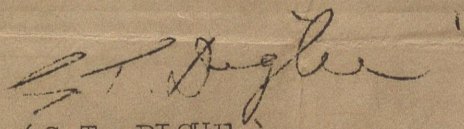

PARTICULARS OF POSTS:

1. Junior Research Associate - Two Posts - Rs. 500/-p.m. fixed.

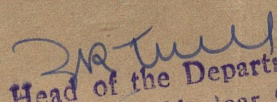

Qualifications - For one post - M.Sc. degree in atleast second class in Zoology with specialisation in Animal Physiology or Endocrinology. Some experience in research methodology as applied to Pollution Biology desirable. In the absence of suitable candidate with specialisation in Animal Physiology a person with M.Sc. degree in atleast second class in Biochemistry will be considered.

For one post - M.Sc. degree in atleast second class Nuclear/Analytical or Inorganic Chemistry or A candidate with a second class B.Sc. degree in Chemistry and atleast two years experience in analysis of trace elements.

The posts are temporary, but likely to continue for three years.

(G. T. DIGHE)
REGISTRAR.

The interview is tentatively fixed for the 28th of Nov. Any change in the date will be communicated to you.

Head of the Department,
Department of Nuclear Chemistry,
Institute of Science,
Bombay-400 032.
