Dr. M.S. Swaminathan
B4/142, Safdarjang Enclave
New Delhi, 110029
India

Dear Dr. Swaminathan:

Thank you for your letter of March 16th 1988 from Oxford. I had received your other earlier letter a short-time ago (about 1 week earlier). I have tried to call John Evans but we have been missing each other with returned calls. He is scheduled to call me back later today so I may add a note if that happens.

Thank you for the suggestions for noon-time (or seminar) speakers. We have a Congress Executive meeting next week to decide on whether to proceed with that as the program is very full. Yet we do need more representation from India.

Relative to funding for Symposia speakers we have normally been offering only registration and asking whether they can raise funds locally. Your Symposium was an exception in that we expected they would also need airfare. Where people can't raise funds we ask them to let us know what they will require. This is then made available to them by a cheque from NRC when they arrive at the Congress in Toronto. Thus, you should let myself or Dr. Walden (Secretary-General) know your requirements.

.....2

Honorary President/Président honoraire:
L. SIMINOVITCH
University of Toronto

Secretary General/Secrétaire général:
D.B. WALDEN
University of Western Ontario
