

Dear Professor Krishnan,

Thank you for your letter of 17.I.36, stating your acceptance of our invitation to contribute a paper on "Fluorescence Phenomena of Impurity Molecules in Crystals" to the "Photoluminescence-Kongress" of Warsaw. We had hoped that you would be able to present the paper yourself, but would interpret from your letter that you will not be able to be present at the "Kongress".

Will you kindly inform us if we have understood your letter correctly? If you cannot be present we shall arrange to have your paper read by one of the English speaking members of our Physical Institute.

Could you prepare your paper so that it can be printed in approximately ten pages of the *Acta Physica Polonica*.

We should be very pleased if you can be present at the meeting, in which case, may we inform you that the speaking time will be limited to one half hour.

Allow us again to express our appreciation for your letter and for your effort and cooperation in preparing this paper.

Yours very truly

A. Jabłoński
