NAVRANGPURA, AHMEDABAD-9, INDIA

May 30, 1972

Dear Rajan:

I am writing to you after quite some time. I hope things are going on well with you. I didn't get some feed back from Prof. Chitnis, but I understand that you did not get too much time for discussions. I also heard from Sanjeev about your meeting with Prof. Menon.

I am writing this in connection with the forth-coming visit of Mr. V. L. Swaminathan of ESD to USA. Mr. Swaminathan will be working at GSFC and later will be visiting NASA's earth stations. He will be reaching USA about July 10. I request you to kindly look around for suitable accommodation and to help him with settling down in USA. He will be spending 4 or 5 months in Washington area and about one month visiting the earth stations. Mr. Swaminathan is probably going to take his wife along also. I am asking him to write to you directly regarding details of size and type of house etc.,

Kindly inform Mr. Kale also about this. I am writing to you rather than to him since I understand that he may be leaving for India shortly. I am sure you will provide all necessary help to Mr. Swaminathan.

I hope things regarding the ATS-F schedule and specifications are clearer now. Do keep us informed.

Everything here is going on as usual. We are awaiting definite decisions regarding the organisational changes in ISRO. I shall keep you inform of developments.

With regards,

Yours sincerely,

(K. S. Karnik)

29 September 1972

Dear Rajan,

Kindly recall that I had written to you many months back about Mr. Swaminathan from ESD who was to go to USA for training at GSFC. Unfortunately, his programme was postponed at that time. We have now reworked Mr. Swaminathan's programme and he is scheduled to reach USA about October 8. He will be spending time at GSFC and at the NASA Earth Stations at Rosman and Mojave. He may also spend some time with COMSAT and in Canada. This, however, is yet to be worked out.

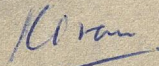

I am writing to request you to kindly help Mr. Swaminathan find suitable accommodation near GSFC. Mr. Swaminathan will write to you directly regarding his requirements and his exact programme. Kindly give him all possible help in settling down there so that he can begin work soon.

I trust your work is going on well. As you know, there have been a great deal of changes over here. Mr. Kale may have given you some idea of the situation and thinking here. In case you want any specific information, do not hesitate to write to me.

I trust all of you are doing well.

With regards,

Yours sincerely,

  
(K.S. Karnik)
