Respected Prof. Madhava Rao (garu),

Recently by chance I have come across your two Presidential Addresses to the Indian Mathematical Society for the years 1960 and 1962. I very much enjoyed reading them. Now, how I wish that you had an Institute of your own instead of those that only believed in Tea Parties and Musical Concerts ! Then the future of Science and especially of Theoretical Physics in India would have been in proper hands!

. May I request you to send me a copy of each one of your Presidential Addresses if you have still a few copies of them to spare? If possible, I also want a complete list of all your publications.

With my best of Seasons Greetings and

With my best personal regards,

Sincerely,

I.V.V. Raghavacharulu

(I.V.V.Raghavacharulu)

Saw him personally at
the Sudarshan Seminar between
17-21 July & gave him all reprints.
He is working with Ramanna at Bombay
Atomic Energy Centre
on Rs 1,600/- p.m. it appears!
Also saw Ramanna, but he mentioned my
assignment at first, but had no time
to talk it over at leisure.
