Dear Professor,

This is a just to remind you about the report on the thesis of S. K. Datta. I am afraid this has been already delayed to the extreme and should be sent urgently. I hope you have not lost the copy of the thesis and a copy of my report. Of course, if you may rely on my recommendation you may simply write to the Registrar, Calcutta University that you recommend the candidate for the degree. A substantial part of the thesis has since been published in two parts in the P. R. S. and almost the entire experimental work in these papers are to be credited to Datta. Since you have gone through these two papers you

are familiar with the major part of his work.

So I feel that you need not even go
again through his thesis, but simply
send the recommendation. It will
require only a few minutes and
we shall be very glad to get it within
the next week. Please treat this as fore-
most priority. ~~and~~ Expecting eagerly
your reply and report.

With best regards.

yours
Akshay.
