Research Laboratory

May 7, 1955

Sir K.S. Krishnan,  
Head, National Physical Laboratory of India,  
Hillside Road,  
New Delhi 12, India.

Dear Sir Krishnan:

I wish to thank you very much for the two reprints  
by yourself and Dr. Jain which arrived here today. These I heard  
you give in part in Holland last summer and will read them in  
detail very soon now that our University term is over.

It is very pleasant to be on your mailing list  
and I hope that you will continue to send me reprints when they  
are published.

Sincerely yours,

G.A. Woonton,  
Macdonald Professor of Physics

November 14, 1955

Sir K.S. Krishnan,  
National Physical Laboratory of India,  
New Delhi,  
India.

Dear Sir Krishnan:

Thank you very much for the reprint of your paper "The Distribution of Temperature Along a Thin Rod Electrically Heated in Vacuo, VI. End-losses". We have followed the various papers that you have published on these subjects with a great deal of interest and I look forward to receiving more reprints from you as you write up other parts of your work.

This week I propose to start the work of organizing for the Commission VII meeting of URSI in Boulder in 1957. Thereafter I hope to re-establish the pleasant correspondence which I have had with you and which has lapsed for the last year.

Sincerely yours,

G.A. Woonton,  
Chairman,  
Department of Physics
