1 DEC 1953

The Director,
National Physical Laboratory
New Delhi

Sir,

After passing my m.sc. (Final) examination of 1954 I wish to be a research scholar in Nuclear Physics.

Finding none near and dear to me I seek your advice and valuable suggestions as regards the following:

(i) Where and under whom it will be better to carry research work in Nuclear Physics? Please inform me of some places including India in order of preference.

(ii) As I will be passing my m.sc. with x-rays, where will you like to put me, if I come to your laboratory (N.P.L.).

As regards my educational career I can only say that coming events cast their shadows before. In brief:

I passed from U.P. Board of High school and intermediate education:

(i) H.S.E. in Inddiv with distinction in Arith in 1948.

(ii) I.Sc. E. in 1st div with distinction in Phys, maths and Chem in 1950

and (iii) B.Sc. from B.H.U. in 1st div with Hons. in maths in 1952.

About m.sc. I have given you the statistical data and leave it to you to decide, where I will stand. I am prepared to give anything more you need from me.

Yours faithfully

Behari sharan
