26 March 1986

PERSONAL

Dear Dr. Swaminathan:

It has been quite some time since we have met and I do hope that we will be able to meet during your next visit to India.

I am writing this for a specific purpose. As you are aware, I shall be laying down the office of the President of INSA in January 1987. The election for the new President will soon be due and the choice will be made in the August meeting of the Council. I have learnt that there is a good chance of your returning to India by January 1987. If so, I would very much like you to consider taking up the Presidentship of INSA. I cannot think of a better President for the Academy. Will you kindly let me know whether you would agree?

With warm personal regards,

Yours sincerely,

Dr. M.S. Swaminathan
