My dear

I received your d.o. letter No.891/DG/79 dated 30th March, 1979. It is a matter of great pleasure to us and an honour to you that the Govt. of India have considered you the fit person for a very important assignment of Secretary, Ministry of Agriculture and have selected you for the same, for which I congratulate you and appreciate the decision taken by the Govt. of India.

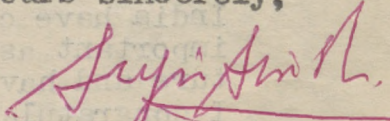

2 for one year
Your services to the ICAR are distinguished. Though I got the opportunity to work with you as member of the G.B., ICAR but my feelings and opinion about you is the same today which I got for you in the first meeting i.e. Dr. Swaminathan is one of the ablest scientist today in the world. This is good that you are leaving ICAR for better prospects but I feel at the moment that there is no substitute for you for the present.

I hope your successor Dr. Gautam who is also a distinguished scientist and good administrator will prove to be equally good after a lapse of time but I earnestly feel that a great vacuum has been created by your leaving the ICAR. Therefore, it becomes very essential that you may continue to guide and take interest in the progress of the ICAR. I cannot forget your affection and cooperation which you gave to me during the short period of one year during which I had the privilege to work with you as a member of the SFC

and G.B. I am enclosing the letter with heavy heart and with affection.

With best regards,

Yours sincerely,

(Sujan Singh)
