Dear Dr. Krishnan,

My son Naresh has come for a short holiday from England where he was under training in Mechanical Engineering specially in the field of Steam Generation Engineering. Just now he is in Delhi staying at the Prime Minister's House and can be contacted by your Secretary on telephone 43401, extension 162. I am keen that he should visit the National Physical Laboratory. Since Dr. Mathur is no longer there, I am writing this to request you kindly to ask someone to show him round.

Trust this finds you in good health.

With kind regards,

Yours sincerely,

P. N. Kathju
