Namaste All. 180 seconds for me.
200 cheers ^{and accolades} for Prime Point
Srinivasan ^(PPS) and Team.

Saraswati's Grace ~~I am~~ ^{I am} able
~~to~~ to look beyond Horizon as PPS.

PPS had many ideas since 1999.
I was fortunate to encourage
him and give some critical suggestions
Many thanks he remembers me.

The Growth of Ideas and Actions
from Team PPS is AMAZING.
They have absorbed Technology with equal speed.
So I suggest new challenges
for the next 5 years.

⊗ Re-visit Sansad Ratna Awards
to add features like Relevance
to their Constituency which
elects them.

o The lottery system of selecting questions adds some uncertainty about who has really ~~done~~ done homework. The 'allegations' of ~~ethical~~ non-ethical practices cloud the mere numbers. Think about them to make changes.

o NGPL may also include or reserve some space for those who have no^{big} family backgrounds and yet ^{have} risen up.

o Similar to Edu Loans can you help in various Health Insurance matters : Ayushman Bharat and others

o Digital Journalism : Can you try a new Offshoot of use of AI for good Journalism as enumerated in your excellent eBook.

o Lastly : Can you launch in Indian languages? Start with Hindi.
