Your Ref. : -

Dear Sir,

The adviser of our club Mr. Saleel Tambe was in touch with Shri Asad Rehmani but as he was shifted to AMU, he had suggested Mr. Tambe to contact you for further correspondence. So this letter is for your kind persual.

As a part of our wild life activities (with observation and photographing), we four people were at Sailana from 26th to 28th June 93, though, we knew that the Floricans might have not arrived there. So we are planning to have another visit to Sailana, after we confirm the arrival of them.

I came to know that you (or some other person from BNHS) do have a visit or two, every season. Are you planning a visit this year? If yes, then may I please request you to let me know your date of arrival at Sailana, so that (and if it doesn't harm you) we would like to join you, there.

So please write to me about your plan, if any.

Please find a self addressed and stamped envelope with this letter.

Thanking you.

Assuring you best of our efforts towards nature and wild life conservation.

Your's sincerely,

(Shacheendra Bapat)
