LIÉGE, le 31 août 1932.

Dear Sir,

I have just read your paper about Magnetic analysis of Molecular orientations in Crystals published ~~in th~~ Nature of the 27th instant.

As I am specially interested in the question you have been dealing with, I should be very obliged to you would you send me a reprint of the paper you published in the Indian Journal of Physics and related with this question.

I thank you very much in advance and I am, Sir,

Your Sincerely

Brasseur

Henri Brasseur.

Liége, July 28 -1939.

Dear Dr. Krishnan,

I thank you very much for your kind letter of the 4 th instant.

According to your request, I shall be very glad to select and eventually to prepare for you crystals of typical complex salts with some paramagnetic ions. Unfortunately, I shall be leaving to-morrow for my holy-days and I do not see the possibility of selecting them just now, but I will do that as soon as I come back in September.

I have heard that part of the SS. Narkunda burnt on the way to India . I hope you did not suffer from any injury.

I hope to see you again some time in Liége but for a longer time.

With best regards
Very sincerely yours

H. Brasseur
