Dear Dr. Krishnan,

May I join all those who have congratulated you on your sixtieth birthday and express my fervent hope you will be with us many many more years to help our country and people in their march forward?

I had read in the newspaper today of the function yesterday at the National Physical Laboratory and I was happy to read the warm tributes paid to you which you, I may I say with respect, so richly deserve.

I also read in the newspaper that the present made to you by the staff has been donated by you to start a fund in the interests of the staff of the Laboratory. That is ~~very~~ typical of you - and please accept the cheque enclosed

as my contribution in ~~of~~ honor of your
sixtieth birthday to the same Staff Fund
of your Laboratory.

Please also accept my very belated
congratulations on your being appointed National
Professor. I had intended writing them myself
but somehow in the rush of everyday work
it ~~was~~^{was} forgotten.

With my sincere respects,

Yours affectionately

Mohan.
