OK

Dear Sir,

You may remember that ~~of~~ about fourteen years back - in 1942 - I published a book in Hindi entitled भारत के विद्वान . This book contained life sketches and accounts of achievements of twelve eminent Indian Scientists including your good self.

You had been kind enough to supply me relevant information for this book and also helped me by providing authentic information about late Dr Mahendra Lal Sarkar and Sir C.V. Raman.

A second edition of this book revised and enlarged is now in preparation and is likely to be published by the end of this year.

I am therefore writing this to request you to kindly arrange to supply me through some of your assistants a brief account of your career and notable

scientific achievements during the period 1942 - 1956. This will enable me to make the book really up-to-date and useful.

Hoping to be excused for the trouble,

Yours truly

S. N. Kapoor
