

only six weeks holiday, and my stay at home
was very short.

Is there any likelihood of your visiting
this country in the near future? If so I shall
beetle you and be meeting you

Best regards,

Yours sincerely

Dear Prof. Krishnan,

I have applied for a position on staff in the Tata Institute of Fundamental Research, Bombay to Prof. Bhatia and I have taken the liberty of giving your name as one of the referees. Should Prof. Bhatia refer to you, I shall be very grateful if you will ~~be~~ ^{kindly do the} needful.

During my four years stay at Metropolitan Vickers Elec. Co., I have been concentrating on gaining experience in the development of Particle Accelerators and I have been mainly connected with the construction of the 300 MeV Synchrotron for the Glasgow University. We have also developed a 20 MeV Betatron for research in Nuclear Physics and deep therapy treatment of Cancer. Although I have a permanent position in Metropolitan Vickers, it is my desire to return to India in a year or two and seek opportunities for work of a similar nature at home and I thought the Tata Institute provided ample opportunities for it.

It is a pity I could not visit you in New Delhi when I was returned home last year, as I had

Dr K.S.Krishnan F.R.S
Director

My dear Ambasankaran,

Thank you very much
for your kind letter of January 10. I shall
be very glad to support you strongly if a
reference is made to me regarding your
appointment at the Tata Institute of Fundamental
Research, Bombay. I am sorry to have missed
meeting you while you were in India. I hope
we shall be able to meet soon.

With kind regards

yours sincerely

Dear Prof.,

I hear from Press reports that as a member of the Atomic Energy Commission you are now attending the conference in Geneva on the peaceful use of Atomic Energy.

If you are going back to India through London, I wonder if it will be possible for you to see me if I come down to London to meet you. I am keen on returning to India and would like to seek your advice regarding possible openings for me at home. If you would kindly fix up a date then I shall travel to London to see you. I have also ~~not~~ written to Prof. Bhatia, seeking an interview.

I trust you are having an enjoyable time in Geneva and the conference is proving a success.

Thanking you and with best regards,

yours sincerely
C. Ambasankaran

Dr. S. Krishna,
Scientific Adviser to the
High Com. of India,
London.

Dear Dr. Krishna,

I have arranged with Prof K.S. Krishnan to meet him on his arrival in London next week and he has suggested that I should get in touch with you to find out his programme. I shall be very grateful if you will kindly let me know the exact date of ~~an~~ his arrival, the duration of his stay in London and also his address in London.

I would very much like to know the date of arrival of Prof. Bhatia also, and the duration of his stay in London as I would like to meet him.

Thanking you,

yours sincerely

C. Ambasankaran
