

Dr. R. P. Sharma
Scientist

D.O.No.Gen/RPS/
Division of Genetics
Indian Agricultural Research Institute
New Delhi-110012.

Dated: the 14th October, 1977.

My dear Miss Krishnaja,

Thanks for your letters of 19th August & 6th Oct. I am happy to note that you have succeeded in setting up Drosophila work in PAU. I shall be sending you soon the attached-X stock.

Regarding your quarry about the position ^{at} Ahmedabad, honestly, I do not know much about the type of work they are interested in. Last year, I met Dr. Anand Sarabhai at Mahabaleshwar. He is a person of repute. If you recall, he along with Yanofsky, had worked on the colinearity of base sequences in DNA and amino acids sequences in protein in Phage T4. He is interested in setting up a small group of dedicated workers in Microbiology, Molecular biology and Drosophila Genetics. At present I do not ^{have} any more information on this aspect. I am, however, planning to attend a symposium at Ahmedabad in the first week of January 1978. If I could meet Dr. Sarabhai, I shall be able to find out more about the nature of work and salary etc. Meanwhile, you can directly communicate with Dr. Sarabhai at the following address. You can give my reference to him.

I do not have any objection in writing to Prof. O. Siddiqi. Kindly send me your biodata in duplicate.

Please pay my regards to Dr. Gupta.

With best wishes,

Yours sincerely,

R. P. Sharma

(R. P. SHARMA)

Miss. A. P. Krishnaja
R.N.228,
Department of Genetics,
College of Basic Sciences & Humanities,
P.A.U., Ludhiana, 141004. (Punjab)

Dear Dr. Sharma,

I hope you have received my last letter. I have been trying for a post-doctoral assignment abroad & have received an application form for a fellowship to work in Germany. I am expected to provide three confidential references from a scientist who knows me and the same has to be in a sealed envelope to be forwarded with my application. I request you to oblige me by sending the same in sealed envelope which I shall forward along with my application & other papers. I am sending here with my biodata which I hope will help you to prepare one. I shall also be obliged if you can send a testimonial to

the effect - that I ~~do~~ ^{was} ~~for~~ ~~asking~~
kathred under you and your
assessmat about me. I am asking
you about this mainly because
it may be useful to me when
I apply ^{some} where.

I do hope you will
oblige me -
Thanking you and with kind
regards

Panjim
Goa

9.1.81

Dear Miss Krishanji,

The day I got your letter, I was to start for Goa, to attend an IBRO course on Neurobiology. At present I am in Goa & attending this course at National Inst Oceanography. John Nicholas, Stanford Medical School & O. Siddiqi are jointly organizing this & keeping us very busy from 9 AM to late evenings. I am sorry, your work is being delayed.

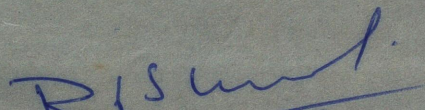

The course is going to be over on 20th Jan. I shall be reaching to Bombay on 21 or 22nd Jan & intend to stay at T.I.F.R. Hostel up to 24th Jan. I have my reservations from Bombay to Delhi by Frontier Mail on 24th.

It would be better if you could write your own testimonials & letter of commendations & bring these to me duly typed at TIFR, on 23rd Jan so that I need to put only my signatures. This will speed up your work. Otherwise, only after reaching Delhi, I shall be able to do the needful.

Rest on meeting

with best wishes.

P.S. Congratulations for your doctorate. I am sure you are now a really a "Philosophus"
