Dear Mrs. Tanal Das,

My name is Nandita Ghosh. You might be wondering who I am. You may be knowing your friend P. R. Sen or Prithi Ranjan Sen of Anahar. Well, I am his grandchild and I have come here to spend my summer vacation with my mother.

My favourite hobby is 'Bird Watching'. I have already got one book of yours named 'Watching birds' which I brought from the book fair the year before last.

But, in this particular book where you have suggested in building nesting boxes for the birds but you have not given exact measurement for each house and which is suitable. For your convenience I have traced out the houses from the book and given numbers 1, 2, 3, 4, 5, 6 and 7. Please, can you write the exact measurement for each of the houses and the names of birds which suit these houses. And, please can you inform me when the nesting-season starts and ends. Our more request is that, please can you draw any wooden house suitable for the 'Buller' bird as it comes here and also in Calcutta.

Have please, inform me if any recent book of yours has been published. Or can you suggest any other author who has written something of bird watching.

I will be staying here upto 10th June. Please send as soon as possible. If you cannot send before 10th June send it to at Calcutta at the below address.
