

Abnamalainagar, 28-11-67

Dear Dr. Madhava Rao,

Long since I heard from you. Hope you keep fit and are getting on with your work under the UGC scheme.

I am hoping that the University here would invite you to give the special lectures on Operations Research. If they invite, you would have to go here sometime in the Second or third week of February next.

I am writing this special letter to enquire whether you happen to know any one sufficiently influential in the Committees of the National Institute of ^{Sciences,} India who would help one of my research scholars to secure a Junior Fellowship in the Institute for one year tenable at the Annamalai University. If so, please write to me. I shall ask the student to apply at the appropriate time.

With best regards,

yours sincerely,

V. Govapathy Iyer

Dear Dr. Govapathy Iyer,

Your letter dated 28/11/67. I am getting on with the teaching under the UGC

Scheme will finish by the end of January 68, and will be a good riddance indeed.

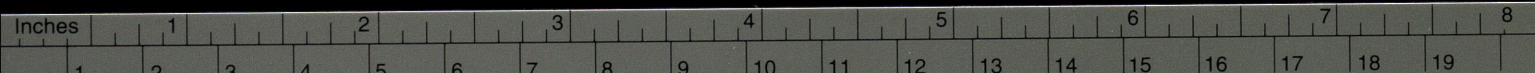

As regards the Junior Fellowship you have mentioned, I am afraid it is too late for this year. I am myself in the Fellowships Committee of the NDS, and ironically enough, I sent up recommendations regarding two useless students for the award of the Fellowships. The last date for applications is 31st October. Prof. C. T. Rajagopal is in this Committee for 1968, and it should be easy for the student to set the awards next year.

With best regards,

Yrs sincerely
BMM
