Subject : Elective course in – Ecology and Architecture.

Dear Mr. Jaimini Meheta,

Along with this letter we are enclosing an outline of the elective course, as discussed here at Pune.

This outline is to give you an idea of the scope and expanse of the subject. As we understand, the duration of an elective course is 15 days. Out of these 15 days we would like students to visit different ecosystems along with us. This will mean about four field visits during the course. We have a couple of excellent restoration sites near Pune. If the group could come here for a couple of days it would be ideal.

Let us know your mind.

We are also attaching a brief note introducing the Ecological society.

Yours sincerely

Prakash Gole  
Director  
Ecological Society

Mahesh Rajwade  
Trustee  
Ecological society

**Subject : Elective course in Ecology and Architecture**

Dear Mr. Gole

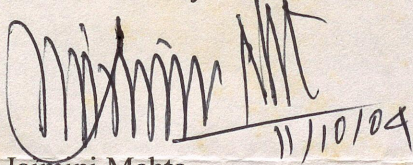

This has a reference to your letter dated 31<sup>st</sup> July 2004. We have gone through your letter, but we may not be able to send the students there. Instead, we would like to explore the possibility of you taking this elective here for our "Elective Week", that we are planning to organize between 6<sup>th</sup> to 17<sup>th</sup> of December, 2004 for our students.

We have gone through your sub-topics of elective, and we would like you to focus your scope of presentation on topics like sustainable ecology, recycling and re-use of materials, and minimizing the use of fossil fuel and large scale mechanical operations in construction practice. For any clarification, please get in touch with Shri Ashish K. Rege, Asstt Professor, who is looking after this elective programme.

Our College will give suitable T.A./D.A and make arrangements for your stay (if desired) here in Panaji.

Hoping to get a positive response from you.

Yours sincerely

Jaimini Mehta  
Principal
