

Physics Department,
University of Allahabad
Allahabad
29. 7. 47.

Respected sir,

I do not know whether you know that this year the University authorities have increased 40 more seats in B. Sc. 1st year class. On account of this they want an additional Lecturer in Physics and they have advertised the post. Professor Bhagava wants me also to apply for that. But before applying I want to have your approval as well. If you think that it is worthwhile applying then I shall put my application and would request you to kindly send soon one testimonial about my work with you. As you are aware I passed all my exams in 1st class except H. S. (Prer). 5th August is the last date for the application. In case you do not

approve my applying for the post-
kindly write a few lines to the
effect so that I may know your
advice ^{and do likewise} I am well here with all
others.

Yours obediently
Rudra Pal
