Dr. K.S. Krishnan, F.R.S.,
Indian Association for the Cultivation of Science,
210, Bow-Bazar Street, CALCUTTA, INDIA.

Dear Sir,

Krishnan

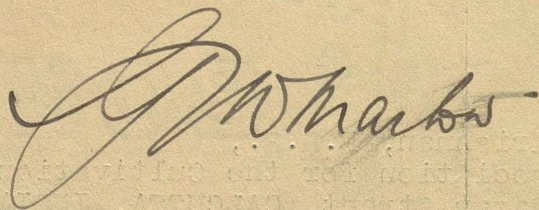

I have to-day passed the proofs of the paper by D.C. Chakravarti and S.C. Ganguly which I received from you on the 15th August, and the paper will appear in the November issue. I made one small addition at the suggestion of one of the referees after I had consulted Mrs. Lonsdale at the Royal Institution.

P.2, section 2, at end of l.2: I added "They are all monoclinic save naphthacene which is triclinic." The referee thought it well that the crystal form should be stated, and I trust this

P.T.O.

meets with your approval.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "J. W. Marks". The signature is written in a cursive style with large, sweeping loops and is positioned in the center of the page, below the text "Yours sincerely,".
