My dear Krishnan,

I was indeed very happy to learn of the Bhatnagar award presented by Pt. Nehru. I like the latter part of the citation which mentions "A scholar of distinction, well versed in classics, Dr. Krishnan attaches importance to the humanistic values of science, and the place of science in liberal education". How truly this fits you ! I wish our University education was such that prepare young scientists to humanistic values of science.

Both my wife and I are so happy.

With best wishes,

Yours affectionately,

Shri Ranjan

Respected Sir

It is with great pleasure that I come to know that you are the first recipient of ~~of~~ The Shanthi Swarup Bhatnagar's Award. I wish to offer you my humble felicitations on this happy occasion. At this juncture I pray to God with all my heart to bless you with a very long life full of health and happiness and may you bring us Indians to the world's forefront in the realm of science more and more by your contributions. Ofcourse it is one of the unique cases where the award itself acquires an added dignity by virtue of its recipient. Really lucky will be those who succeed you in receiving this award, you being ' Le premier'.

I am getting on well with my work and am trying my best to impress upon Mr. Guillaud, who is very kind to me. I hope you will be visiting Paris in the near future when I shall look forward enlightening myself on many points by your advice.

I hope you are doing very well. I am hearing from Shri. T.V. Ramamurty often, whose kind letters are of a great source of inspiration to me.

With regards, and always in need of your blessing,

Yours truly,

R. Krishnan
