

121, LUKERGANJ,
ALLAHABAD.
21. 1. 52.

Respected Sir,

23 JAN 1952
You will be glad to know that I received D. Phil. degree in the last Convocation. My thesis was on "Acoustics of Clarinet".

Now, Sir, I look upon you as my revered guru to help me to be fixed up somewhere. You know that I was one of the earliest batches of students, being only one year junior to Sri Harish Chandra, who had the opportunity of being your pupil in the M.Sc. class. After spending about five years in research work it is time now that I should start earning and support my old parents. At present I am officiating as a lecturer in the Physics Deptl. for about a year on a salary of Rs 300 + Rs 35 D.A. per month. The post is under the leave vacancy of Sri Rajendra Singh, who would be joining the Deptl. after the elections when I would be thrown out of employment..

About three years back when I met you at Delhi along with my father-in-law Sri S.C. Banerji of Bombay, you were very kind to me and promised me to help. I learn that it would not be difficult for you to appoint a D. Phil. (in Physics) to a post of Junior Scientific Officer. I hope you will give me a chance.

I request you to send me a suitable testimonial as that ~~is~~ will help me in my future career.

Hoping to be favoured with your reply.

I beg to remain,
Sir,
Your Most Obedient Pupil,
R. Chatterji
(RAM GOPAL CHATTERJI)
