Dear Sir,

I introduce myself again as son of R. Gopala Sengar, brother of R. Narayana Sengar, Watrap.

I met you last year at Penyamickalpalayam, Coimbatore, where you came in connection with Saradamani centenary celebration. You promised them to try your best to get a lab-assistant post in Karaikudi or Madras Bacteri Institute or a technical assistant post. I am working now as a science assistant so that I can have touch with the subject.

Please kindly try to get a lab-assistant post or technical assistant post at least this year. If necessary, I am prepared to go over there. Hope you will take interest in me and oblige.

yours obediently
G. Sundararajan

Dear Sir.

I hope you will remember me. I met you at at Periyanaickenpalayan (Coimbatore). Then you promised to do your best to fix me either in Karai Kudi or in Leather Institute Madras. I dropped you two letters. But it seems that you forgot to inform the Karai Kudi authorities about me. They have already selected laboratory assistants.

I have herewith enclosed two application forms one for the post of Lab Assistant in Leather Inst. and the other for some post in civil aviation. Please try to fix me in anyone of the post. Hoping that you will take considerable interest in me, I have ventured to enclose herewith the application. Please excuse me if I commit

any wrong by doing this.

Hoping to get a favourable reply.

yours faithfully,
G. Sundararajan
