Dear Dr. Swaminathan

Your letter of 6th April. I am so thankful for your remembering me on your departure to a foreign land. I regard it a misfortune of the country that experts, particularly in the discipline of Agriculture And Animal Husbandry have been made to leave or driven out of their Motherland to foreign shores.

I thank you also for the documents you have enclosed with your letter which I will certainly go through as time permits. Hoping that, be the circumstances what they are, you will earn a name for yourself as also for your Motherland by putting in your best.

With good wishes,

I am
Yours sincerely

Charan Singh
