Sir
Dear ~~friend~~,

I am writing this personal letter on behalf of a brilliant young man who is an M.A., M.Sc., in Chemistry. He is Mr. J. Najaram son of my particular friend, Sri V. Jambunatha Iyer B.A., L.T., a well-known headmaster of this area, now living at Chinnamanur near my village. He has applied for a Junior Scientific Assistant's post (Research), Government of India, for a Lecturer's post in Chemistry under the Delhi University. He passed the B.Sc. (Honours) examination in Chemistry of the Annamalai University with a first class in June 1952 and he has just passed his M.Sc. Degree examination of the Madras University with a first class also, taking the first rank.

I am very much interested in the Headmaster's family and in the young man. I request you to use your influence and get him appointed there in any suitable post on a decent salary. I shall deem it a personal favour if you will kindly do your best for this young man.

Please convey my respects to Sri S.S. Moorthi Rao, Director of Telegraphs, New Delhi, *now at Geneva* who is my near relation. Hope you and family are quite well.

Markayankottai,
18th June, 1953.

Yours sincerely,
M. S. Ramarao.
