Dear Sir,

Sir, we some students of Udipi College, humbly request you to give us an inspiring message and piece of advice which will be our future light. I hope you know that Udipi is the birth place of the great Dwaita Philosophy and of its founder Madhwacharya.

We have maintained a beautiful Album in which, we have personally collected the numerous messages of our Statesmen, Educationalists, Writers, Scientists, Philosophers Leaders like Nehru, Radhakrishnan, Vinobha and C.V.Raman, etc., But we are very sorry for not having had an opportunity of a message of you. We will be happy to receive a few words from your hand.

We are anxious to know from you "The Science Students responsibility in Free India".

We hope and trust that you will reply our loving letter, taking, Sir, your own time to write us. We shall preserve your letter for ever. We will be highly indebted to you if you will present us your photo with your autograph.

May Lord bless you with a long life to serve Mother India.

Thanking you in anticipation,

Yours faithfully,

Raghuram N. Pai
