Indian Institute of Science
Bangalore 560012.

Dear Sir

The Salim Ali Centre for Ornithology and Natural History (SACON) as you aware, is an autonomous centre supported by the Ministry of Environment and Forests, Govt. of India to undertake studies on birds, wildlife and biodiversity conservation. Our research staff includes core scientists, research fellows, doctoral students and others. So far, SACON has completed more than 140 research projects, published around 150 research papers, several technical reports and popular articles.

As per our rules, the performance of our scientists has to be assessed separately by three experts from abroad and three experts from within the country. I would very much appreciate, if you could kindly be one of the **Internal Experts** to assess the performance of **Dr P Pramod, Scientist/ Nature Education Officer, Division of Nature Education**. A line in confirmation of your acceptance by e-mail followed by a hard copy will be highly appreciated so that the publications could be sent to you immediately for your evaluation.

Thanking you

Yours sincerely

P A Azeez
