

SECRETARY

THE MATHEMATICS-PHYSICS-CHEMISTRY SOCIETY
ST. STEPHEN'S COLLEGE
DELHI 8

6th December 1955

Dear Dr. Krishnan,

I shall be very grateful to you if you could spare some time for us sometime next month. The members of the Society look forward eagerly to a popular lecture from you in our college under the auspices of the society. I understand that you are usually very busy and it is practically impossible for you to attend to such minor requests; however if at any time you are not particularly engaged in any thing will it be possible for us to have you here? I thought it was more proper that I should give you enough notice so that we ~~are~~ are not disappointed. Meantime I shall be in communication with you through Raman. If possible we shall like to make it sometime in 2nd week of January.

It will be impertinent on my part to suggest a topic for your lecture - and this must be left entirely to your discretion. Please let me know through Raman when you are free during the next term so that I shall arrange for the lecture accordingly.

Thanking You Very Much

Sincerely Yours
Ajay Kumar Mehta

SECRETARY.
