Sir K. S. Krishnan, Manager
National Physical Laboratory of India
Hillside Road, New Delhi, India

Dear Sir:

It was a great pleasure to learn from our Mr. S. Shimoda that you had been kind enough to give him the opportunity to visit your laboratory on the occasion of his recent trip to India.

We are very glad to inform you that he has returned safely to Japan after very pleasant and fruitful trip. Taking this opportunity, we wish to thank you most kindly for your courtesies and cooperation extended him by you. It was a great delight to know that he had been very much impressed with the splendid laboratory you were kind enough to take him through yourself.

Thanking you again and believing your further success and prosperity, we are.

Yours very truly,

THE JAPAN STEEL WORKS, LTD.
