January 11, 1954.

Dr. K. S. Krishnan,
Director, National Physical Laboratory,
Hillside Road,
NEW DELHI.

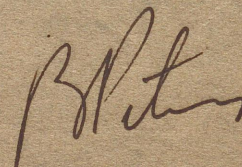

Dear Dr. Krishnan,

During the first part of February, we plan to carry out some high altitude flights at Delhi. During this period it would be very useful to us to have some dark-room facilities available to us for the packing of our various emulsion stacks. I wonder whether the National Physical Laboratory can make available to us one dark-room for this period.

The remainder of our technical problem seems more or less solved, however, we still experience difficulties in finding accommodation for three weeks for the members of our group (eight or nine people). If you could make any suggestions, which might enable us to secure accommodation, I would be very grateful. In any case, please write to me whether a dark-room could be made available to us at the National Physical Laboratory.

Looking forward to seeing you again next month, I am with
best regards,

Sincerely yours,

B. PETERS.

18 MAR 1954
Dr. K. S. Krishnan
Director, National Physical Laboratory
Hillside Road
NEW DELHI.

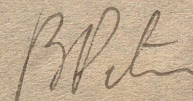

Dear Dr, Krishnan :

The rapid changes of the wind conditions in northern India forced us to modify our experimental plans, and made it necessary to shift all our equipment to Ahmedabad on short notice. Thus, I had to go back on my promise to give a colloquium at the National Physical Laboratory, but I shall do that when I come to Delhi next time.

I wish to express my sincere gratitude for helping us while in Delhi, and putting at our disposal various facilities at the National Physical Laboratory.

With kindest personal regards,

Sincerely yours,

B. PETERS.
