4-4-1910.

4-4-1991.

81 years for Sri Aurobindo in Pondichery.

my dear 17-5-

you saw gloria -

we have annex gloria in Orissa -
just near Rice-Research entre-

It is called Matnigram. 140 acres
Sandy soil.

It is a gift to Sri Aurobindo Ashram -
as we worked on gloria Land - we
have started to work there.

we need wheat for us.

we ventured - we sowed -

our first harvest of 1055 kg is on the
way by Rail.

Matnigram gives us hopes - for
ground-nuts, pulses, wheat, rice.

Already 3500 Coconut Palms are
growing, 2000 more seedlings are
ready for the further planting.

The entire technology is from Gloria -
a total confidence in the Divine Grace -
and with that strength of knowledge
and dedication we act -

Orissa is all richness -

Matu-gram shall be so, dear M.S.

I feel you as one of us and I am
happy to feel so. Gloria feels you so,
let us go together - hand in hand -
heart and heart -

a bright Sun-shine will blaze -

Dyurnem.

24-4-91.

Our dear Swaminathan,
We call this day as the
Dashan Day.

Mother arrived in 1920
April 24th.

We distribute this -

You have it, dear Swaminathan.

Received your letter. This
Confirms we are moving on
the same path

To gether we go on the Path
of Light.

Dyuman.

12. 5. 91.

Divine grace is all knowledge.
It acts.

Dr. M. S. S. is here with us on our
gloria Land. He is the father of
the green revolution. Brought the
Mexican wheat. Our scientists worked
on that and now we have surplus
wheat. But along with that came the
chemical fertilizers, poisonous pesticides
etc. to produce that heavy very heavy
factories came up - polluting the air,
water and soil - eventually the health
of the air, water soil etc.

He is here with us. On the break-
fast table - here is the wheat grown
without the chemicals and the spray
of poisonous pesticides. Here is the
sustainable food.

He has come out for the
sustainable food. It is here.

It is the act of the Divine Grace
not a coincidence - but a deliberate
action to show to our M.S.S.

This - we have all our wheat, rice,
dair, milk and milk-products, vegetables
and banana & fruits.

A healthy food creating every where
sustainable health of air, water,
soil. Trees, animals.

The Divine Grace presents this
to you, dear M.S.S.

It is no small coincidence -
when I complete 64 years at the
Mother's feet, serving on the same
main subject - food.

You have the first trial bread
biscuits.

now send some one on motor
bike or so reaching the bakery at 8 A.M.
Baker will give the fresh bread. hope
an improved one.

we can show to our M.S.S.
and all can see and taste it.

In next trials shall be the butter
bread - and one day butter bread for
all.

Être en accord intégral et constant avec
Toi, c'est avoir la certitude de vaincre tous
les obstacles, de triompher de toutes les
difficultés intérieures et extérieures.

— La Mère

24 April 1991

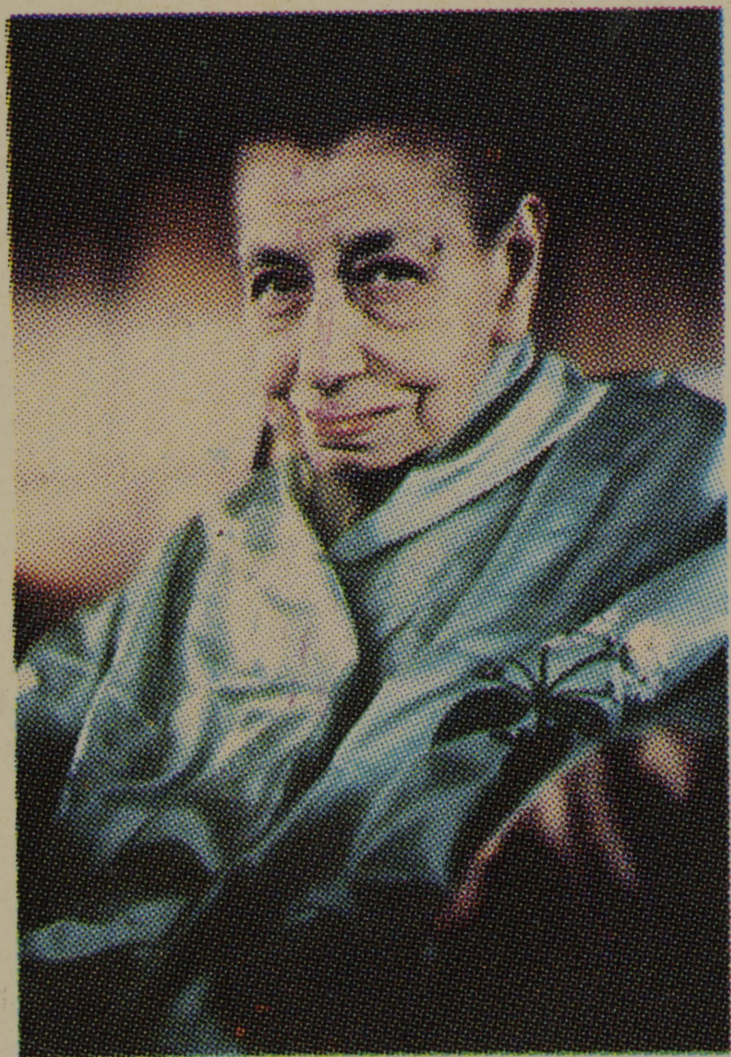

To be constantly and integrally at one with Thee is to have the assurance that we shall overcome every obstacle and triumph over all difficulties, both within and without.

— The Mother
