UNIVERSITY OF MYSORE

MYSORE,

Dated 7. 10. *193* 4

Dear Mr. Madhava Rao,

I have no particular instructions to leave regarding the telescope. The mechanism should be thoroughly cleaned and put into running order. When this is done, the telescope may be mounted in some convenient place (e.g. in one of the downstairs verandahs of the Physics Laboratory ~~e.g.~~, as you have suggested) and observations may be made on a bright star. You are probably able to find instructions regarding the method of inspecting the in and out of focus images for testing the object lens. I expect to come back for a day or two towards the end of the month and shall come and look at the telescope then.

Yours sincerely,

G. Somerville
