Dear Prof. Aromose

I thank you very much for your letter of February 5, 1988.

I am extremely happy to see the progress in the production of the Global Science Journal. I wish you a great success in this important initiative.

With warm regards

Yours sincerely

M.S. SWAMINATHAN

Dear Dr. Swaminathan,

Re: GLOBAL SCIENCE JOURNAL: Maiden Issue

This is to thank you for agreeing to serve in an advisory capacity for the Global Science Journal. It is my rare privilege to be associated with such distinguished scientists from the different continents of the globe. This appreciation is shared by my colleagues who will benefit immensely from the Journal.

I will need your advice on the nature, scope and content of the maiden issue which we intend to publish before June, 1988. I am sending in my next mail, instructions to authors regarding the format of the Journal. The cost of the Journal will be based on the cost of production.

Although this is a non-profit Journal, you will be remunerated with a percentage of every subscription received from your country as well as those received through your contacts. This will be in appreciation of your time and expertise for identifying with the Journal. Without your identifying with the Journal, it could neither be global nor successful.

Please, kindly address all future correspondence on the Journal to the Editorial Office as above. My best regards for the season.

Yours sincerely,

*O.S.A. Aromose*

O.S.A. Aromose
