Professor K. S. Krishnan
Allahabad
Division of United Provinces
British, India

Dear Professor Krishnan:

I am writing you at the suggestion of Professor
W. Zachariasen of the University of Chicago.

He tells me that you may have some fairly
large single crystals of graphite. I am trying
to get a single crystal roughly about 1" x 1" x 1"
(1 inch x 1 inch x 1 inch) but smaller (or larger!)
would do. Such a crystal is needed for some
experiments I am conducting here at the
Argonne National Laboratory.

If you can supply any such crystals I would
be deeply grateful to you; and I would gladly
pay the cost of shipping (and insuring) same
by the fastest carrier (air mail presumably).

I am thankful for your time and hope
to receive a favorable reply.

Sincerely,

A. H. Weber
Professor of Physics St. Louis Univ.
on-leave-of-absence.
